

6 Players: (2 DSP; 2 Consumers (Bob and the new guy); 2 Police officers)

**Scenario 5:**

Bob arrived home from day program at 3:30. He asked for something to eat and was given a burger. While Bob was eating, Staff 1 asked if everything was “OK” and Bob told Staff 1 “sure”.

Bob then took a shower, as he usually did at that time.

Staff 1 was helping a new resident put away clothes in another room.

Bob was in his room when Staff 1 heard him yelling. Staff 1 ran to Bob’s door and saw him knocking things off his dresser. Bob then threw his alarm clock on the floor. Bob began pacing.

Staff 1 went down the hallway to the office telephone and called 911.

Bob yelled from his room “I’m really upset!”

Then Staff 1 heard Bob run out the front door and slam the door. Through the window, Staff 1 saw Bob pick up a stone from a decorative boulder arrangement in the front yard and throw it at the kitchen window. Then Staff 1 saw Bob run down the driveway.

The Police arrived and took pictures and a report. There was no damage to the window. The police told Staff 1 to call them if Bob came back. Then the Police left.

Staff 2 has arrived to work and come into the house. Staff 2 is standing in the kitchen talking with other consumers, and Staff 1 is in the living room when Bob comes home and walks in the front door.

Staff 1 tells Staff 2 that the Police said to call them if Bob came back, and tells Staff 2 that s/he is going to call them.
